

Grow your business

with the Umbrella company of choice...

We take care of your contractors, your obligations as an employer, and your reputation so you can focus on business.

For recruitment agencies, giving your clients a high-quality service is the route to repeat business. Naturally, you'll want to fulfil all your legal obligations and make sure your contractors receive a friendly, professional and reliable service. But you also want your recruitment team focussed on supporting your clients, not pulled away from their core roles to resolve snags with pensions and timesheets or be checking for compliance with employment law. Fortunately, you can have it both ways, because we deal with all that and much more, every day.

Want to be the agency of choice?

Your prospective clients and contractors want to know they can trust you on legislation, insurance, and the quality of your service.

Changing legislation can leave you vulnerable. It's important to keep up, otherwise, not only could there be financial penalties, but also other companies might find themselves unable – and unwilling – to do business with you.

And then there are your contractors: those representing the quality of your agency on the inside of your client's business. When the basis of their employment is worry-free they're better able to deliver a great job and be asked back to do more, which means more for you, too.

Count on us to do the right thing

Working with us can help you build your reputation and position your firm as the agency of choice.

Because this is what we do all day every day, we're fully up to date with the latest legislation and we also keep abreast of upcoming changes. We also provide specialist knowledge and trained staff so your agency doesn't need to acquire any additional skills. That means you can reassure your customers that your processes are best practice and fully compliant, from the outset.

[TJW] have provided my agency with a first-class service not only in their dealings with our operatives, but also keeping us up to date with any potential regulatory changes within the industry and HMRC.
